

The Quick Website Audit

Five things that decide if your site sells or just sits there.

A website is a salesperson, not a poster. Use this audit on your own site right now. Send us your link and we will run it for you and send back a ranked list of fixes.

1. FIRST SCREEN

- ☐ It says what you do and who it is for.
- ☐ There is one main action, clearly visible.
- ☐ Your location or service area is obvious.

2. ONE ACTION PER PAGE

- ☐ Every page has one job: book, buy, call or enquire.
- ☐ The main button looks the same everywhere.

3. PHONE EXPERIENCE

- ☐ Buttons are big enough for a thumb.
- ☐ Text is readable without zooming.
- ☐ It loads quickly on mobile data.

4. TRUST

- ☐ Real reviews with real names.
- ☐ Real photos of your place, team or work.
- ☐ Contact details that work: phone, WhatsApp, email.

5. WORDS

- ☐ Headlines talk about the customer, not about you.
- ☐ Prices or starting prices are shown where they matter.

DO THIS TODAY Count your ticks. Under 10 out of 13? Send us your link and we will show you where to start.

Send us your website link and we will reply with your audit. DM @crode_studio or email hello@crode.studio
