

Cafe Online Presence Check

Menu, hours, map and an order button that works.

If your menu is a screenshot in a WhatsApp group, hungry people are scrolling past.
Here is the check.

THE 5 POINT CHECK

- ☐ Google your cafe. Are the hours, photos and phone number correct?
- ☐ Is your menu a real page with prices, or a blurry photo?
- ☐ Is there an order or call button on the first screen?
- ☐ Does the map pin land on your actual door?
- ☐ Do your food photos make someone hungry at 3pm?

MENU PAGE BASICS

Text	Every dish as text, not an image.
Price	Next to every item.
Photos	Your best 6 to 10 dishes.
Action	Order, call or WhatsApp on every screen.

DO THIS TODAY Fix your Google hours today. It takes two minutes.

Send us your Instagram or website and we will tell you the first thing to fix. DM @crode_studio or email hello@crode.studio
