

The Page Teardown

What is broken, ranked by impact.

A 60 second scan finds most of what is wrong with a page. Most fixes are small and ignored. Send us any page and we will tear it down for you.

THE 60 SECOND SCAN

- 1 First 5 seconds: is it clear what this is and who it is for?
- 2 First screen: is there one obvious action?
- 3 Scroll: is there proof (reviews, photos, results)?
- 4 Phone: are buttons and text easy to use?
- 5 Speed: did it load before you got bored?

WHAT YOU GET FROM US

- ☐ What is broken, ranked by impact.
- ☐ Quick fixes you can do yourself.
- ☐ Bigger fixes worth doing properly.

DO THIS TODAY Run the scan on your homepage now and note your top problem.

Send us the link to any page for your teardown. DM @crode_studio or email hello@crode.studio
