

The Link in Bio Fix

One link, one action, more clicks.

Twelve links is zero decisions. People tap, see a wall of buttons and leave. Here is the fix.

THE 5 STEP FIX

- 1 One hero button at the top: the ONE thing you want people to do.
- 2 Two supporting links at most: menu, location or reviews.
- 3 Delete anything older than 3 months.
- 4 Button text says the action: "Book a table", not "Click here".
- 5 Test it on your phone, then cut again.

BEFORE AND AFTER

Before	12 links, old promos, every social account.
After	1 hero button, 2 helpers, nothing else.

DO THIS TODAY Open your link in bio now and delete one link.

Send us your current link page and we will tell you what to cut. DM @crode_studio or email hello@crode.studio
