

The Weekend Launch Checklist

Everything we need from you to go live by Monday.

A website live on Monday beats a perfect one that never ships. This is the exact list we work from. Get these ready before Friday and the weekend does the rest.

BEFORE FRIDAY: WHAT YOU SEND US

- ☐ Your logo, any file, even a screenshot. We clean it up.
- ☐ 6 to 10 real photos. Phone photos are fine if the light is good.
- ☐ What you sell, in your own words. A voice note works.
- ☐ Opening hours, location and a map pin.
- ☐ Your WhatsApp number and the email you want enquiries sent to.
- ☐ The ONE thing you want visitors to do: book, order, call or enquire.
- ☐ A domain you own, or a name you would like. We check it for you.

THE WEEKEND, HOUR BY HOUR

Friday	A short call with fixed questions. We lock the page plan and the one main action.
Saturday	We write, design and build. You get a preview link the same day.
Sunday	You review on your phone. We fix what you flag.
Monday	Live on your domain, connected to Google and WhatsApp.

WHAT MAKES A WEEKEND LAUNCH SLIP

- ☐ Waiting for the perfect photos. Ship with good ones, swap later.
- ☐ Ten people giving feedback. Pick one decision maker.
- ☐ No access to your domain account. Find the login before Friday.
- ☐ Adding pages mid-build. Launch lean, add pages in week two.

DO THIS TODAY Make a folder on your phone called WEBSITE and drop your logo and 6 photos in it today.
