

A Booking Flow That Works

If booking is hard, they book elsewhere.

Let customers book at 11pm without a single message. Here is a five step flow that takes under a minute.

THE 5 STEP FLOW

- 1 Pick a service, with price and duration shown.
- 2 Pick a date and an open time slot: real availability, not "DM us".
- 3 Name, phone, email. Nothing else.
- 4 Instant confirmation on screen and by message.
- 5 Automatic reminder the day before.

WHY REMINDERS MATTER

Reminders cut no-shows because people forget, not because they do not care. A message the day before is the simplest fix.
