

3 Places to Put Proof

Strangers trust other strangers.

Your best reviews are probably hiding on Google Maps. Put them where people decide.

THE 3 PLACES

- 1 Right under your headline: one short real review, or your Google rating.
- 2 Next to every main button: a line of reassurance, only if it is true for you.
- 3 Its own section: real photos of real customers or work, shared with permission.

TYPES OF PROOF

Reviews	Real names, real words, ideally from Google.
Photos	Your actual customers, place or work.
Numbers	Only real ones you can back up.
Logos	Clients or partners, with permission.

THE ONE RULE

Never fake it. Only real reviews, only yours. Fake proof is easy to spot and costs more trust than it earns.

DO THIS TODAY Copy your 3 best Google reviews into a note. Those go on your homepage.
