

What to Move Off Facebook First

Facebook is rented. A website is owned.

Keep Facebook. Just stop living there. Move these to your own website, in this order.

MOVE THESE FIRST

- 1 Your menu, products or services, with prices.
- 2 Your contact details, hours and map.
- 3 Your best reviews and photos.
- 4 A way to book, order or enquire.
- 5 Then point every Facebook and Instagram post back to your site.

RENTED VS OWNED

Facebook page	Rules change, reach drops, it is not yours.
Your website	Your domain, your content, orders in your inbox.
