

A Portfolio Structure That Books

For photographers who want clients, not just likes.

Your best photo is buried under 300 posts. A portfolio site puts it first.

THE STRUCTURE

Home	Your best 12 shots and one line on who you shoot for.
Galleries	By type: weddings, resorts, portraits, products.
Packages	What is included and a starting price.
About	Your face, your story, how you work on the day.
Contact	A "Check my dates" button on every page.

CURATING TIPS

- ☐ Show the work you want more of, not everything you have done.
- ☐ Best 12, not 300.
- ☐ Lead with your strongest image.
- ☐ Update every season.

DO THIS TODAY Pick your best 12 photos this week. That is your homepage.
